Powered by innovation and inspired by impact, Affiliates **Portermetrics** operates globally from Colombia with offices around the world, including Delaware, United States. We've helped hundreds of companies and merchants redefine how they engage online, using the power of A.I. and the intelligence of the E.T.L. framework.

We believe in people as much as we believe in technology. That's why we take a dynamic, human-centered approach to business growth , because we love what we do and who we do it with(You)**.**

Trusted by +1500 marketing teams and agencies

Available Remote Job position

Product Insights Upload

Smart, simple, and designed for your lifestyle. With nothing more than your phone and an internet connection, you can complete your daily uploads in **under an hour**, anytime, anywhere.

Flexibility fuels great work. That's why our **Flexible Work Policy** is rooted in **Agility, Team Spirit, and Kindness,** helping you stay inspired, effective, and in control of your schedule.

Job Role

Our primary responsibility is to **accurately upload product information for merchants** using a simple, one-click process powered by **A.I. within the E.T.L. framework**.
This process enhances each product's visibility across online searches, as the E.T.L. system automatically distributes the uploaded information to relevant marketplaces.

As a **User**, you are **not required to buy or sell any product,** your role focuses solely on uploading product information to ensure legal accuracy and optimized distribution.

Why We Use Humans Instead of Bots

Our approach is built around a **dynamic, A.I powered human-centered strategy** for business growth. Human participation ensures that each upload is **verified, authentic, and compliant**, creating a "demo buy" that validates the product information upload as a **legal operation**.

The use of bots, on the other hand, can be flagged as **unauthorized or deceptive activity**, which could compromise the integrity of both the merchant and the marketplace. Human interaction guarantees transparency, reliability, and trust throughout the entire process.

How We Earn Revenue

Our revenue model is built on **performance and visibility**.
When merchants' products gain higher visibility across marketplaces, their **sales increase significantly**. As a result, merchants continue to **partner with and pay the company** to maintain consistent product visibility, performance, and long-term market relevance.

This mutually beneficial system allows both the merchants and our platform to grow sustainably, ensuring ongoing value for everyone involved.

Product Evaluation and Reliability Assessment

Every product listed on **Affiliates Portermetrics** undergoes a **rigorous international quality inspection** process conducted by globally recognized organizations such as:

1. **SGS (Société Générale de Surveillance)**
2. **Intertek**

3. **ISO (International Organization for Standardization)**

These certifications guarantee that each product meets **international quality and safety standards**, ensuring reliability, compliance, and consumer trust.

Daily Profit Allocation and Salary Process

At **Affiliates Portermetrics**, we believe that dedication should always be rewarded. For every set of product information you successfully upload, you earn a **commission ranging from 0.5% to 2%** of the product's value. In some rare cases, when a **combination product** is encountered during the upload process, your commission rate can **increase by up to six times** the standard percentage — offering a significant boost to your daily earnings.

These commissions can be **withdrawn immediately** after completing your daily primary duty.

This initiative is designed to **encourage consistency, motivation, and engagement**, as our users are truly **the heart of our operations.** In addition to daily earnings, users are eligible for **bonuses and performance-based rewards** based on sustained activity.

Sustained User Engagement Period	Salary Earned (USD)
3 Days	$150
5 Days	$500
10 Days	$1,000
20 Days	$2,200
30 Days	$3,500

Payment and Withdrawal Methods

At **Affiliates Portermetrics**, your security and convenience are our top priorities. Our platform supports both **blockchain-based transfers** and **traditional banking methods**. However, to ensure **faster, safer, and more reliable payouts**, we strongly recommend using **internationally approved blockchain firms and fintech platforms.**

This approach was adopted with our users' best interests in mind.
With the increasing risks of online fraud and credit card breaches worldwide, we transitioned from traditional fiat-based transfers to **secure blockchain transactions**.

This shift offers several important advantages:

- **Enhanced security and privacy** — no need to link sensitive credit card or bank details.
- **Faster global payments** — receive your commissions and salaries instantly, no matter where you are.
- **Greater financial inclusion** — empowering users in all regions with equal access to timely payments.
- **Protection against inflation and currency instability.**

Given our organization's international reach, managing real-time payments through traditional banking systems would be slow and complicated. By utilizing blockchain-based payments, we simplify the process, allowing you to **convert your earnings seamlessly into your local currency** while enjoying **safe, transparent, and efficient transactions**.

Your trust matters to us, and every improvement we make is designed to protect your funds, respect your privacy, and make your experience smoother and more rewarding.
